About Me

Passionate 19 years old front end developer,
I am highly motivated by learning new technologies
and tools, also working with creative team to push
the boundaries up.

Projects

Watched

Watched is a movies project I am working on, made
by React, Tailwindcss, TMDB api. You can add movies
you watched to you list and monitor what genres
you spend time the most on.

Current Exchange SOON

It is a webapp that shows live exchange rates and
convert currencies.
